Best Practices from NYC's Hepatitis B Advocacy Initiative

Niki Bannister, MPH, MS

May 2015 Hepatitis Local Law Enacted

A Local Law requiring the Department of Health and Mental Hygiene to issue an annual report regarding hepatitis B and hepatitis C

With this legislation funding was made available to organizations to provide linkage to care programs

However, this was a long road to get here...

*If you want more details on the actual law go to: http://bit.ly/nycHepLaw

Timeline

City Council Member Briefing on Hepatitis B in NYC

Purpose: educate City Council members & staff on the importance of hepatitis B in the community they serve

Agenda included:

- Overview of hepatitis B by physician
- Impact of hepatitis B on the different communities affected - Chinese, African, Korean, & Hispanic,
- Personal story
- National perspective
- Request to City Council to act!

National Hepatitis Testing Day Press Conference

Purpose: Gather hepatitis B & C advocates together to raise awareness for hepatitis B & C testing, prevention and treatment

Public Hearing on Hep B & C

Physicians, organization leaders and advocates were encouraged to testify to the needs of people living with hepatitis B & C and to share their perspective on what is needed to improve hepatitis B & C awareness, screening, linkage to care, and treatment in NYC.

*For more detailed minutes and video of the Public Hearing, go to: http://bit.ly/Hep-Hearing

Key To Success –

Have a Hep B Champion on City Council!

- Have legislation or proclamation for Champion to support
- Plan multiple press
 opportunities for Champion to
 participate (get to know your
 Champion's press secretary)
- Keep the momentum!
