Development of a Guidebook for preventing Hepatitis B

- ▶ Was developed and produced in 2007 by the Hepatitis B Initiative of Washington, D.C. (HBI-DC) in partnership with the Association of Asian Pacific Community Health Organizations (AAPCHO) and the Asian Pacific Islander American Health Forum (APIAHF) funded thru the Office of Minority Health.

Goals in the Guidebook

- ▶ Main focus is to encourage communities to take ownership and develop health prevention programs, specifically tailored for their respective communities.
- ▶ Provide leaders and outreach workers with talking points related to Hepatitis B Virus.
- ▶ Assist organizers in setting up education, screenings, and/or vaccination events in their communities.
- ▶ Provide education tools and forms that leaders can use in their campaigns.

Chapters in the Guidebook

- ▶ Getting Started
 - Getting Started Issues of Confidentiality
 - Starting Your Hepatitis B Campaign
 - creating a Timeline

- ▶ Hepatitis B Education & Awareness
 - Raising Awareness in Your Community
 - Engaging Other Community Leaders
 - Engaging Religious Congregation
 - Engaging Potential Community Partners
 - Hepatitis B Materials
 - Advocacy in the Community

- ▶ Volunteer Training for Screening & Vaccination Events
 - Steps to Organizing a Volunteer Training
 - Tips for Training Sessions
 - Evaluation

con't Chapters in the Guidebook

- ▶ Hepatitis B Screening & Vaccination Events
 - Preparing for Screening & Vaccination Events
 - B. Screening Events
 - C. Vaccination Events

- ▶ Evaluation of HBI–DC’s Model
 - Overall Program Evaluation
 - B. HBI–DC Partners: Data Collection

- ▶ HBI–DC Partner Provider Forms & Materials
 - Forms and Materials for Step 1: Getting Started
 - Forms and Materials for Step 2: Hepatitis B Education & Awareness
 - Forms and Materials for Step 3: Volunteer Training
 - Forms and Materials for Step 4: Screening and Vaccination Events

HBI-DC celebrated our 10th anniversary in 2016

2016 White House Viral Hepatitis Testing Appreciation

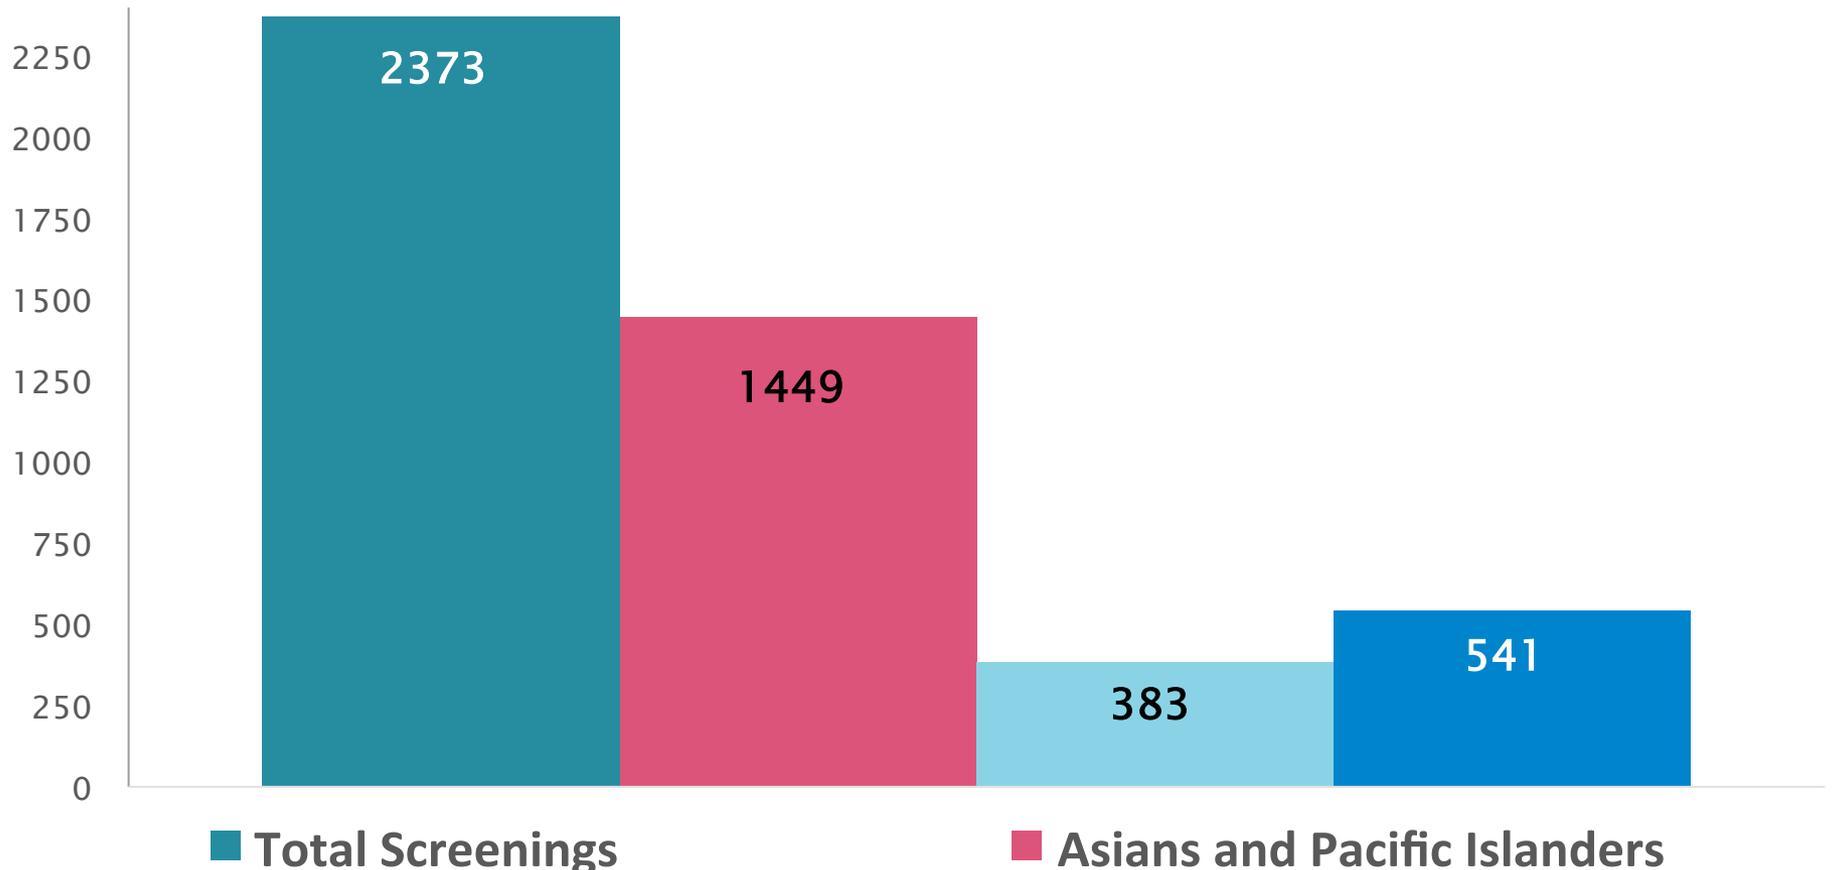

2016 Screenings

Educated	Screened for HBV	Screened for HCV	Screened for HIV
3666	2373	2214	1588

Total Events	HBV Positive	HCV Positive	HIV Positive
56	83(3.5%)	41(2%)	2

2016 Screenings
