

# HEP B UNITED

*Working together to stop hepatitis B!*

## Vision

A future free of hepatitis B.

## Mission

Hep B United is a national coalition dedicated to eliminating hepatitis B and the health disparities and inequities associated with hepatitis B and hepatitis delta among highly impacted communities across the United States by increasing awareness, screening, vaccination, and linkage to care.

## HBU Coalition Members

## Implementing Our Mission

Our partners are essential to our success and include national organizations, federal partners, and local hepatitis B coalitions comprised of community-based organizations, academic research institutions, student organizations, businesses, faith-based organizations, and local and state health departments. For a complete list of our partners please visit [www.hepbunited.org](http://www.hepbunited.org).

## Our Goals

### Awareness

Raise the profile of hepatitis B, hepatitis delta, and liver cancer as urgent public health priorities through education and advocacy.

### Prevention

Increase hepatitis B testing and vaccination, particularly among Asian Americans, Pacific Islanders, African immigrants, and other communities highly impacted by hepatitis B.

### Intervention

Improve access to care and treatment for individuals living with hepatitis B and hepatitis delta and improve access to vaccination, to prevent end-stage liver disease and liver cancer.

## Values

Hep B United is a national coalition comprised of advocates, community leaders, and stakeholders that focuses on the health equity, respect, and empowerment of those affected by hepatitis B. Utilizing evidence-based public health best practice, Hep B United promotes equitable access to health care, preventive medicine, testing, linkage to care, and treatment for all communities at risk for hepatitis B.
